HUGE MAJORITIES PILED UP FOR AMENDMENTS

Severe Earthquake Shocks Felt on Pacific Coast

**SEVERE SHOCKS,
MOSTLY ON COAST,
ARE RECORDED BY
SEISMOGRAPHS**

California and Oregon Cities
Feel Distinct Vibrations

PACIFIC CABLES ARE
NOT INTERRUPTED

Observatories in Many Places
Report Severe Tremors
on Record

(International News Service)
SAN FRANCISCO, Jan. 31.—Slight earthquakes were reported to have felt in the residential district of San Francisco this morning. Doors rattled and windows shook, according to reports from widely scattered sections. No serious damage was reported. The Pacific cable reported no interruption of service and private wire companies said no information had reached them from the Pacific.

(International News Service)
EUREKA, Calif., Jan. 31.—A heavy earthquake was felt in this section early today. Clocks stopped at 5:20 as a result of it. Dishes were shaken from shelves, plate glass windows cracked but no other serious damage has been so far reported. The quake seems to have been felt generally throughout this section of the state. Eureka is located on the coast, is about 280 miles north of San Francisco.

(International News Service)
CANYONVILLE, Ore., Jan. 31.—Beds rocked and windows rattled when residents were awakened at 5:30 o'clock this morning by a distinct earthquake shock. No serious damage has been reported. Canyonville is 226 miles south of Portland, and is about 125 miles north of the California line.

WASHINGTON, Jan. 31.—An extremely severe earthquake disturbance estimated to be about 2400 miles south of Washington was recorded this morning on the seismograph at Georgetown University here. The tremors began at 8:25 a. m. and at 12:30 o'clock the seismographic needle in the university tower was still registering. The vibrations are growing unsteady, the Georgetown authorities said, and are lessening in volume.

(International News Service)
NEW YORK, Jan. 31.—The most violent and long continued earthquake tremor since the machine was installed in 1912 was reported on the seismograph at the American museum of natural history here today.

(International News Service)
CAMBRIDGE, Mass., Jan. 31.—An unusually heavy earthquake shock was recorded at Harvard's seismographic station shortly after 8:25 o'clock this morning. At 8:30 the tremors were so violent that the recording apparatus was temporarily put out of commission. The recording needles burst the drum entirely.

(International News Service)
CLEVELAND, Jan. 31.—An earthquake starting at 8:24 o'clock and apparently of tremendous proportions was recorded in the seismograph at St. Ignatius college here this morning. Dr. F. L. Odenbach in charge said today: "It is apparently about 3000 miles away and I suspect either in Central America, Mexico, Alaska or the Aleutian Islands. The record shows a greater tremor than ever before recorded on our instrument."

BERKLEY, Calif., Jan. 31.—The entire world was rocked one fifth of an inch, by today's earthquake, Prof. A. O. Lawson said in a statement issued today after checking readings on the seismograph at the University of California. Prof. Lawson estimated the center to have been within 600 miles of here.

**FEDERAL PROBE OF
THEATRE DISASTER
BEGUN; THREE MORE
VICTIMS MAY DIE**

Police Figures Indicate 95 Per-
sons Lost Lives in
Crash

SENATE INVESTIGATION
ALSO UNDER WAY

Washington Hospitals Still
Crowded With Injured;
Many Maimed

(International News Service)

WASHINGTON, Jan. 31.—The federal grand jury under the direction of District Attorney Peyton Gordon, went to work in earnest today in its investigation to fix responsibility for the Knickerbocker theatre disaster. Estimates of the number of dead continue to vary around a hundred, but the list was expected to be augmented during the day by the deaths of at least three persons who were fatally injured in Saturday night's crash. They are: Dr. Clyde Gearhart, Miss Carolyn Upshaw and Edward Williams.

E. H. Shaughnessy, second assistant postmaster general, who was in a serious condition yesterday, was reported this morning as greatly improved.

Hospitals were still crowded with the injured today, many victims being permanently maimed.

In addition to the grand jury investigation, which will be pushed rapidly, the senate today is expected to take action on the resolution of Senator Capper, of Kansas, ordering an inquiry into the construction of the Knickerbocker theatre and all other large buildings erected in the city during the war. The resolution already has been acted upon favorably by the senate committee for the District of Columbia and its adoption probably will be effected soon after the senate convenes today.

The grand jury is receiving assistance from engineers of the war and navy departments and is collecting a mass of evidence bearing upon the construction of the theatre, which will be placed before the jury when the actual injury gets under way.

The huge piles of debris that blocked Eighteenth street and Columbia road were being hauled away today leaving nothing at the scene of the disaster but the four gaunt walls of the theatre. These have been ordered torn down by the district building inspector. After checking and rechecking the list of dead and injured, the police announced today that the official list now show 95 persons lost their lives. This figure may be changed. Several of those reported killed were found last night in Washington hospitals and in several other instances names had been duplicated.

DETROIT MAN IS
LOOKING US OVER

Thomas Swan, of Detroit, Mich., it was learned today, is in the Twin Cities looking over the ground with the probability of the locating here of some industries. Mr. Swan is in full possession of all the facts relative to the development of the Muscle Shoals and was attracted to this point by the articles appearing in the daily papers about the Tennessee Valley Industrial Exposition that will be held here in February.

He expressed himself as being greatly pleased with the outlook, and was especially impressed with the advantages to be had here in transportation, industrial sites, etc.

**FORD'S BID WILL
GO TO CONGRESS
THURSDAY NOON**

(International News Service)
WASHINGTON, Jan. 32—Secretary of War Weeks announced this afternoon that the Ford Muscle Shoals contract would be sent to the senate and the house at noon Thursday, February 2.

**H. G. HILL BUYS
GREEN GROCERY CO.**

W. A. Green, Popular Grocery
man, to Remain as Manager
of New Concern

The advent of the H. G. Hill company of Nashville, one of the largest retail grocery concerns in the South, into the Tennessee Valley will be made Wednesday morning when the company will take over the business of the Green Grocery company of Albany, according to announcement today by William A. Green.

The Hill company will continue the business of the Green grocery at its present location on Moulton street with Mr. Green as general manager. There will be no change in the policy of the company.

Although Mr. Green refused to be quoted on the expansion policy of the new company, it is known that Mr. Hill maintains more than half a hundred retail stores in Nashville, Chattanooga and other Tennessee points and it is regarded as likely that Albany-Decatur will be the base of operations for a far-flung chain of similar establishments all over the Muscle Shoals district. Negotiations for the purchase of the Green company have been under way for some time and Mr. Hill was a recent visitor to the Twin Cities.

Friends of the retiring company will be glad to learn that Mr. Green will still retain a connection with the new company. He has acquired a wide circle of friends in the Twin Cities since coming here several years ago from Sheffield. Prior to that time he made his home at Mt. Pleasant, Tenn., where he was a prominent and popular citizen. Mr. Hill is one of Nashville's best known business men and was formerly president of the Commercial club.

**Jewish Relief
Drive Continues**

MONTGOMERY, Ala., Jan. 31—(Special)—The state executive committee for the Jewish relief campaign has decided to extend the drive until Sunday, February 5. This announcement was made by Isidor Weil, state chairman, following news from throughout the state that unfavorable weather conditions during the week prevented committees in various localities from actively soliciting.

The date originally set for closing the campaign was February 1, and this decision on the part of the executive committee continues it through the week.

ODD FELLOWS MEET

Albany Lodge I. O. O. F. No. 159 had an oyster supper at their hall on Second avenue Monday evening, participated in by the members' and their families.

This was the regular meeting night of the fraternity and it is the custom of the lodge to give social functions at least once a month.

The evening was very pleasantly spent and a full attendance of membership was a splendid feature of the occasion.

**TWIN CITIES VOTE
GOOD ROADS BY
MAJORITY OF 1500**

Nineteen Out of 31 Boxes in Morgan County Give Majority of 2103 for Highways

With complete returns from 19 of the 31 boxes in Morgan county the good roads bond issue has a majority in the county of 2103. The remaining twelve boxes yet to be heard from at 3 o'clock this afternoon will not materially affect the result as they are small boxes. The final majority is expected to be about 2200 or 2300 in the county for the bonds.

Morgan county also endorsed the soldiers and sailors poll tax amendment.

From the reports that are available at the hour of going to press the two amendments that were voted on Monday indicate a sweeping victory for both. In the Twin Cities the vote was a splendid endorsement of the issues, very little opposition existing, as is evidenced by the vote indicated below.

Morgan county went over the top for good roads and soldier poll tax exemption, according to early returns. The Twin Cities gave the bond issue amendment almost 1,500 majority. The vote follows: Decatur court house: Bond amendment, 251 for, 4 against; poll exemption, 234 for, 18 against. Decatur city hall: Bonds, 201 for, 6 against; poll exemption, 190 for, 15 against. Albany: Box 1, bonds, 115 for, 11 against; poll exemption, 118 for, 8 against; box 2, bonds, 336 for, 34 against; poll amendment, 330 for, 30 against; box 3, bonds, 215 for, 11 against; poll exemption, 210 for, 8 against; box 4, bonds, 471 for, 4 against; poll exemption, 461 for, 13 against.

At Hartselle, the next largest box in the county, the two issues did not fare so well, but with sufficient majorities for each to swell the total majority to splendid proportions. Hartselle box 1, 192 for, 77 against; Hartselle box 2, 150 for, 63 against. Falkville, 107 for, 47 against; Lacon, 33 for, 11 against.

Eva, in the extreme southeastern part of the county, is the only box to show a decided opposition to the issues, the vote being: 44 for, and 44 against. Up to a week ago there was not a single vote in the beat for either of the amendments, it is said.

Somerville box 1, 96 for, 27 against; poll exemption, 104 for, 15 against. Priceville, 28 for, 8 against; Wolf's, 26 for, 5 against; Lanes No. 2, 43 for, 2 against; Valhermosa Springs, 56 for, 0 against; Massey, 27 for, 23 against; poll exemption, 37 for, 8 against; Trinity, 58 for, 1 against.

Missing precincts are in the country, which may change the ratio.

In the election February 16, 1920, the state gave eight to one for the same amendment, which was held unconstitutional by the supreme court.

In a statement today, F. J. Crampton, president of the Alabama Highway Improvement Association, thanked all forces for their activities and declared that insofar as known only four newspapers fought the amendment, they being Coosa River News, Center; Mountain Eagle, Jasper; Geneva Reaper, Geneva, and South Alabamian, Jackson.

Returns from the ex-soldiers and sailors poll tax exemption amendment, though meager, indicated ratification by a majority of 80 to one.

**SYMPHONY ORCHESTRA ARRIVES
TO PLAY TO CROWDED HOUSE**

Widely heralded as one of the world's foremost musical organizations and led by the celebrated Eugene Ysaye as conductor, the Cincinnati Symphony Orchestra arrived in Albany-Decatur this afternoon for its only Alabama appearance at the Princess theatre this evening at 8:15 o'clock.

The musicians, 88 comprising the personnel of the party, arrived on Southern train No. 36 from Memphis at 3 o'clock. Several special Pullman cars carried the party which was met by a number of local Shriners under whose auspices the concert will be given. The cars were shunted off the train and taken to the Albany yards where they will remain until after the concert tonight.

The advance sale of tickets for the attraction has exceeded the highest hopes of the Shriners. At one o'clock this afternoon it was reported that only one seat on the large main floor

ARMS PARLEY IS
NEARING END AS
NAVAL TREATY IS
READY FOR WORLD

Document Will be Ready For
Publication at Tomorrow's
Session

SHANTUNG QUESTION
ADMITTED SETTLED

American Officials Intimate That
Treaty Contains Nothing
Startling

(International News Service)

WASHINGTON, Jan. 31—The long awaited end of the Washington conference which for weeks has shined like a mirage before the weary statesmen here actually appeared in sight today. A great forward step in bringing the parley to a close will be taken tomorrow at the fourth plenary session when the all-important naval treaty complete in every detail will be formally presented to the world. Its provisions are understood to follow closely the outline already made public and American officials said today it contains "no bomb shells."

For the first time it was officially admitted at noon today that the famous Shantung controversy was settled. The information was conveyed by a brief official communication put out by the Chinese and Japanese which was as follows:

"An arrangement has been reached in all essential points in regard to the question of the Tsingtao-Tsinganfu railway and on certain other questions. The two delegations will meet again at 5 o'clock this afternoon for the purpose of drafting a treaty."

Another plenary session of the conference following tomorrow's will in all probability be called for the last of this week or the first of next. At this session it is planned to present the nine powered Chinese treaty and to give the powers an opportunity to pledge their reaffirmation of good intent toward China.

National Organization to Speak
For Law Enforcement

Norman S. Martz, of Indianapolis, spent the last few days in this city perfecting an organization to co-operate with the flying squadron, which is coming here for meetings for afternoons and evenings of Wednesday, Thursday and Friday, March 8, 9, 10. The organization consists of seven speakers divided into three groups. The first will come for two big mass meetings the afternoon and evening of Wednesday. The second group will come to duplicate that program on Thursday. On Friday will come the third group, which will also hold afternoon and evening mass meetings.

The flying squadron is engaged in a nation-wide campaign for law enforcement, social and industrial justice and civic righteousness, according to its announcement.

The campaign is led by the president of the flying squadron foundation, Hon. Oliver Wayne Stewart, of Chicago, who speaks with the third group. The other speakers are: Arthur E. Whitney, of Columbus, Ohio; Christopher P. Connelly, of East Orange, N. J.; Dr. Leigh Colvin, of New York City; James H. Woertendyke, of Chicago, Ill.; Hon. Frank S. Regan, of Rockford, Ill., and Rev. Norman C. Brown, of Bloomington, Ill.

The meetings are to be held in the First Methodist church of Decatur.

No admission will be charged at any of the meetings. Everybody is rendered at once. He confessed to

ADMINISTRATION
IS AFTER BANKERS
CHARGING FARMERS
USURY ON LOANS

White House Statement Says
Governmental Blacklist
Will be Used

BORROW AT 5 PER CENT
BUT LOAN AT 12

State Laws Will Not be Allowed
to Interfere, Says
Officials

(International News Service)

WASHINGTON, Jan. 31—Bank profiteers who borrow money from federal reserve banks at 5 per cent and then extort 10 or 12 per cent in interest rates from farmers are to be blacklisted, administration officials declared today.

Drastic action is to follow the President's expose if the methods of some banks in the farming region can be proven. Officials of the war finance corporation were conducting searching inquiries today to ascertain to what extent bankers or other borrowers of government funds may have employed them to hold up the farmer and other agriculturists in usurious rates of interest on government money.

Other government agencies also were engaged in a hunt for the profiteering banker wherever he may be and regardless of his financial connection or political influence. Something more than idle rumor were the basis of the white house statement expressing alarm that government funds were being used in this way by a certain class of schemers and actual proof of these activities was what high officials sought today.

Meanwhile measures were being taken to make a more effective application of the credit benefit for agriculture, if that is possible. Closer supervision over government credits for farm purposes probably will be inaugurated by the war finance corporation.

The government now is to take the position that merely because state laws authorize the charging of certain maximum rates of interest it is no excuse for borrowing bankers to hike up their interest rates to almost prohibitory points. Within 60 days the farmer of the United States faces the planting season and planting operations are not to be hampered, officials said, by arbitrary action by bankers in boosting interest rates unjustly or other courses of action which has the effect of denying legitimate seekers for credit the amount of capital they need for imperative operations.

**COTTON PRICES ARE
HIGHER ON OPENING**

(International News Service)
NEW YORK, Jan. 31—The cotton market opened firm today with prices 11 to 26 points higher. Japanese and Wall street interests were the chief buyers. Liverpool spot concerns and New Orleans were the active sellers, which caused a reaction on 10 points from initial levels.

A MEANS TO A GREAT END;
THE LEE MEMORIAL

The memorial to General Robert E. Lee, to be established at Washington and Lee University, is to be an endowed department, for teaching journalism as one of the learned professions, and according to the ideals of General Lee himself.

In the Associated Press report of the conference proceedings, this paragraph appears:

The chairman of the committee which brought in the resolution omitting the Ford offer told the conference frankly that, had his committee NOT BEEN MISINFORMED BY THE STATEMENT OF SECRETARY WEEKS, the Ford offer would undoubtedly have been recommended.

According to members of the committee who had called upon Secretary Weeks, the latter had told them that there was nothing in the Ford offer which would guarantee the production of fertilizer at low cost.

This statement resulted in a telegram being sent to Mr. Ford, which brought the following quotation from the Ford offer in reply:

The company agrees to operate nitrate plant No. 2 at the approximate present annual capacity of its machinery and equipment in the production of nitrogen and other fertilizer compounds (said capacity being equal to approximately 110,000 tons of ammonium nitrate per annum) through the lease period, except as it may be prevented by strikes, accidents, fires or other causes beyond its control; and further agrees:

(a) To determine by research whether by means of electric furnace methods and industrial chemistry there may be produced on a commercial scale fertilizer compounds of higher grade and at a lower price than fertilizer which farmers in the past have been able to obtain; and to determine whether, in a broad way, the application of electricity and industrial chemistry may accomplish for the agricultural industry of the country what they have economically accomplished for other industries:

(b) To maintain nitrate plant No. 2 in its present state of readiness or its equivalent for immediate operation in the manufacture of materials necessary in the time of war, for the production of explosives.

It would seem that anybody who has read the Ford proposal, which has been published in full, and is in any way acquainted with the nitrate plants, could not misinterpret Mr. Ford's intentions. He has repeatedly said that he personally is not familiar with the manufacturing process, but that his engineers would attempt to solve the fertilizer problem if given a chance.

It has been his published intention to use nitrate plant No. 2 for this purpose. The plant is equipped for the production of nitric acid. With slight changes, it is possible to manufacture there fertilizers of a high nitrogen content and to market them at a cost far below the product now being brought from Chile.

The opposition of the fertilizer interests in the farm conference was patent. One delegate admitted that he represented those interests and declared that if Ford obtained Muscle Shoals, he would have a monopoly of the fertilizer business.

This admission of Ford's ability to make commercial fertilizers and to sell them at a reasonable figure knocks the props from beneath the gang that has been telling the farmers that Ford could not use the nitrate properties for this purpose.

The more the public learns about the Ford offer, the stronger the sentiment is for Ford to win in his fight against the lobbies that are ranged against him.—Nashville Tennessean.

When great men fall it is fitting and proper that there should be a pause, as we contemplate their constructive goodness. Such a thing has the Educational Exchange done, a periodical published at Birmingham.

The latest issue of this educational journal is given over to memorializing the lives of Dr. J. H. Phillips and his wife, two most helpful educators of the state, who died at Birmingham last July.

The entire issue is given over to those who were so near these two people who gave their lives for the cause of education.

The world is better by so doing. When we can stop the grind of modern business with its inexorable demands upon our lives, and turn and contemplate the goodness and the greatness of those who have been so useful in the day and generation in which they served, we are lifted upon a higher plane, and thereby are inspired to higher heights and nobler attainments, spurred on by the unselfish lives of those who labored with such an unselfish devotion for the common good. May we never forget those who, by their efforts laid the foundation upon which the splendid superstructure that has been reared and is to be reared in the future.

Mr. Ford is undertaking a great task, which promises great results.—New York Tribune.

GOOD ROADS BOND
AGAIN APPROVED

From the Tennessee river on the north, to the gulf of Mexico on the south, the people have registered their approval of the road bond issue, and the poll tax amendment for our soldiers who fought in the world war. Twice has this decision been registered by the voters of the state. A technicality occurring in the calling of the first election which rendered it null and void.

It is the earnest wish of perhaps every citizen that cast their vote for the two measures that every phase embraced in the two issues will be industriously carried out, and that there may be no backward move to thwart the real purpose of the issues.

We are to all intents and purposes face to face with a great opportunity. How well the opportunity will be met depends upon the earnestness with which those in charge carry out the work each has to do. If all in each position of trust do the very best with the sole idea in view of obtaining the very best results, there will dawn a period of development the state has not hitherto enjoyed.

Uneven is the pathway that holds a cabinet

FORD SENTIMENT GAINING

Now that the opposition to Henry Ford's acquisition of the Muscle Shoals project has come out in the open, the sentiment of the country is swinging rapidly to Mr. Ford.

The endorsement by the farm conference of the Ford project is of the greatest consequence. It was obtained over the opposition of the representatives of the fertilizer interests and the administration forces that have sought to control the destinies of the conference.

The recommendation of the conference is:

The improvements already undertaken at Muscle Shoals, on the Tennessee River, making available electrical power as well as opening the river for navigation for 400 miles, should be promptly completed.

A separate resolution, specifically indorsing the Ford offer, followed and was adopted after the fertilizer interests had made a fight to defeat it.

The chairman of the committee which had the Muscle Shoals project under consideration, explained to the conference that the committee had been misled by a statement of Secretary of War Weeks, otherwise it would have recommended the acceptance of Mr. Ford's offer with its report.

In the Associated Press report of the conference proceedings, this paragraph appears:

The chairman of the committee which brought in the resolution omitting the Ford offer told the conference frankly that, had his committee NOT BEEN MISINFORMED BY THE STATEMENT OF SECRETARY WEEKS, the Ford offer would undoubtedly have been recommended.

According to members of the committee who had called upon Secretary Weeks, the latter had told them that there was nothing in the Ford offer which would guarantee the production of fertilizer at low cost.

This statement resulted in a telegram being sent to Mr. Ford, which brought the following quotation from the Ford offer in reply:

The company agrees to operate nitrate plant No. 2 at the approximate present annual capacity of its machinery and equipment in the production of nitrogen and other fertilizer compounds (said capacity being equal to approximately 110,000 tons of ammonium nitrate per annum) through the lease period, except as it may be prevented by strikes, accidents, fires or other causes beyond its control; and further agrees:

(a) To determine by research whether by means of electric furnace methods and industrial chemistry there may be produced on a commercial scale fertilizer compounds of higher grade and at a lower price than fertilizer which farmers in the past have been able to obtain; and to determine whether, in a broad way, the application of electricity and industrial chemistry may accomplish for the agricultural industry of the country what they have economically accomplished for other industries:

MORGAN BAPTISTS
WILL EMPLOY ALL
TIME SECRETARY

Enthusiastic Meeting is Held at
Moulton Heights
Sunday

The Morgan county division of the Muscle Shoals association, an organization of Baptist laymen and their ministers, held an enthusiastic meeting at Moulton Heights Sunday, and when adjournment was had it was to meet next fifth Sunday, April 30th, at Bethel church near Hartsville. The association went on record as favoring the employment of an all time secretary for the Morgan county association; heard reports showing that Baptists had raised \$30,000,000 for church purposes where the formerly raised only \$12,000,000; and that 20,000 new communicants were received in Alabama last year against 12,000 the highest number in any previous year. The sermon at 11 a. m. was preached by Rev. G. C. Walker, of the Albany Southside church, from the text 1 Cor. 3:9: "For ye are God's fellow-workers, ye are God's husbandry, God's building." This important subject was well handled and well received by the large congregation. A sumptuous dinner was served on the grounds at 12:30 and the meeting was called to order at 1:30 when Rev. R. F. Stuckey, pastor of the First Baptist church of Albany, moderator of the association, took the chair and Rev. J. I. Stockton led the devotional exercises. Rev. Stockton read from the Sermon on the Mount. The first speaker of the afternoon was Rev. C. C. Davison, pastor of the First Baptist church of Decatur, who spoke on the tithing campaign. He told of the great movement in the Southern Baptist convention at this time to enlist 500,000 tithees, 40,000 of these to come from Alabama and 1,000 from the Morgan county association. "The mistake we made," the speaker said, "is that we did not aim at 3,000,000 in the South, 240,000 in Alabama and 4,000 in Morgan county. No member should be left out of our plans. We should aim at 100 per cent and not just one in six."

Rev. M. B. Smith, of Hartsville, followed Rev. Davison on the same subject and spoke with his usual power. He stated that "when we learn we are God's stewards the giving proposition is settled." He made a plea that we be governed by the Spirit of the In-dwelling Christ and that we realize all is God's and that we are stewards.

He said we must make the outcast and the poor feel at home at our churches. He urged that the man who made a pledge to the \$75,000,000 campaign and can pay and will not is a robber but that the jobless man and the un-

fortunate should not be expected to pay, but that the man who had money should make up for the loss of the less fortunate.

Dr. W. P. Wilks, pastor of the Central Baptist church of Albany, spoke on the work of the associational pastor. He stated that in our great campaign we made the mistake of leaving out one of the most vital things—the work of enlisting the churches at home and in the weak places. But with all the mistakes and with the depression Baptists have made wonderful reports. There were 20,000 baptisms reported in Alabama last year while the greatest number in any year previous was 12,000. Dr. Wilks insisted that no jobless man would be pressed to pay his pledge but that he pay what he could. T. M. Dix, chairman of the executive committee of the association, followed Dr. Wilks on the same subject and said that our people seem agreed that we have a full time worker in the association. He offered to be one of the 20 men to be responsible to the amount of \$100 each to guarantee a full time associational missionary or pastor for this year. After

the meeting adjourned, Dr. Wilks and Dr. Stockton discussed the matter further and agreed to meet again at 10 a. m. on the following Sunday, April 30th, at the First Baptist church of Albany, to consider the matter further.

Rev. J. I. Stockton, pastor of the First Baptist church of Albany, moderator of the association, took the chair and Rev. W. P. Wilks led the devotional exercises. Rev. Stockton read from the Sermon on the Mount. The first speaker of the afternoon was Rev. C. C. Davison, pastor of the First Baptist church of Decatur, who spoke on the tithing campaign. He told of the great movement in the Southern Baptist convention at this time to enlist 500,000 tithees, 40,000 of these to come from Alabama and 1,000 from the Morgan county association. "The mistake we made," the speaker said, "is that we did not aim at 3,000,000 in the South, 240,000 in Alabama and 4,000 in Morgan county. No member should be left out of our plans. We should aim at 100 per cent and not just one in six."

Rev. M. B. Smith, of Hartsville, followed Rev. Davison on the same subject and spoke with his usual power. He stated that "when we learn we are God's stewards the giving proposition is settled." He made a plea that we be governed by the Spirit of the In-dwelling Christ and that we realize all is God's and that we are stewards.

He said we must make the outcast and the poor feel at home at our churches. He urged that the man who made a pledge to the \$75,000,000 campaign and can pay and will not is a robber but that the jobless man and the un-

a speech by Rev. J. I. Stockton the audience voted as favoring the project of a full time worker for the association, the cost to be in addition to the campaign pledges.

KENYON TO BE JUDGE
WASHINGTON, Jan. 31.—A political surprise was sprung today in capitol circles by the announcement of Senator William S. Kenyon, republican, of Iowa, that he has decided to accept an appointment as judge of the United States circuit court of appeals for the 8th judicial circuit.

will break a Cold, Fever and Grippe quicker than anything we know, preventing pneumonia.

Goodbye Boils!

S. S. Will Rid You of Boils, Pimples, Blackheads and Skin Eruptions.

A boil is a volcano—your blood is "boiled" out into a boil. They'll keep "boiling up" until you destroy them completely by the use of S. S. S., one of the most powerful blood-cleansers known to science. S. S. S. has stood the test of time. The power of its ingredients is acknowledged by authorities. Its medicinal ingredients are guaranteed to be purely vegetable. Right off, it clears the skin of pimples, boils, blisters, blackheads, acne, eczema, rash and other skin eruptions and does it thoroughly. It drives out of the blood impurities which cause rheumatism, makes the blood rich and pure builds up lost flesh. It helps to manufacture new blood-cells—that's one of its secrets. S. S. S. is sold at all drug stores in two sizes. The larger size is the more economical.

Curtain 8:15 Sharp. No one will be seated during rendition of any number.

All Seats \$2.00—Plus War Tax

**Local Pythians
Enjoy Smoker**

The Knights of Pythias of the local lodge, Hermino Number 16, enjoyed an occasion of great interest in their regular meeting last night.

William Milliken, of Florence, district deputy of the Pythian Home campaign, was present and delivered a stirring address in behalf of that cause.

The lodge then proceeded with its work, administering the third degree to Candidate R. W. Garrett. A smoker with light refreshments was a feature of the evening. The attendance was larger than usual and good fellowship reigned supreme.

**Didn't Waste
Money on Food**

The recent campaign against wastefulness in eating did not affect me much as I haven't been able to eat anything but toast and tea for the past five years. Even that would create gas and cause me distress. My weight was down to 84 pounds and my complexion muddy. I had frequent pains in the region of my appendix. I am glad I did not listen to an operation, as Mayr's Wonderful Remedy has made a new woman of me. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all druggists.—Advertisement.

STEVENS-DUTTON.

The marriage of Miss Nellie May Dutton to Mr. Robert L. Stevens took place today at high noon, at the home of Rev. R. F. Stuckey, who performed the ceremony.

Immediately after the ceremony the happy couple left for New Orleans, Mobile and other southern points. They will return Saturday and will be at home to their friends at their residence on Sherman street.

Miss Dutton is the daughter of Mr. and Mrs. S. E. Dutton, of 903 Olive street. The groom is the son of Mr. and Mrs. N. Stevens and is a valued employee of the Louisville and Nashville railroad company, being employed in the boiler shops at the local plant.

Several friends accompanied the young couple to the train and saw them off, and they left amid a shower of congratulations and good wishes.

Mrs. Rufus Moore and children, of Birmingham, are the guests of her mother, Mrs. L. S. Robinson.

Mrs. J. S. Davis, of Lambert, is the guest of her daughter, Mrs. D. L. Shelton, in South Albany.

Rev. and Mrs. M. M. Crow, of Hartselle, are visiting friends and attending the New Era Convention at the Westminster church.

The Cotaco Literary club will meet on Wednesday afternoon with Mrs. J. T. Nelson at her home on East Church street.

Miss Bess Speake, of Birmingham, is the guest of her mother, Mrs. D. W. Speake.

Mrs. J. O. Camp left Monday for Birmingham to enter St. Vincent's hospital, where she will undergo an operation today.

Mr. and Mrs. Harry Carpenter, Mrs. J. R. Daniell and Mrs. Hamil spent Monday in Hartselle.

Mr. and Mrs. Clarence Sandlin have returned from their mutual trip and will be at their home on Gordon Drive this week.

Mr. and Mrs. H. B. Williams and son, Horace, Jr., have returned from a visit to relatives in the Tri-Cities.

Mrs. R. E. Howlett will spend the week-end with Mrs. Lucien Howlett in Huntsville.

**LIMBERS UP YOUR
SORE STIFF JOINTS**

WEATHER exposure and hard work bring pains and aches in muscles and joints. Have a bottle of Sloan's Liniment handy and apply freely. Penetrates without rubbing.

You will find at once a comforting sense of warmth which will be followed by a relief from the soreness and stiffness of aching joints.

Also relieves rheumatism, sciatica, neuralgia, sprains and strains.

For forty years pain's enemy. Ask your neighbor.

At all druggists—35c, 70c, \$1.40.

**Sloan's
Liniment** (Pain's enemy)

Going It Too Hard?

Overwork, worry, overeating and lack of exercise and sleep are responsible for much kidney trouble. If you are weak, rest up and use Doan's Kidney Pills.

Mrs. J. L. Rose, 425 E. Pond St., Decatur, says: "I gave Doan's Kidney Pills a trial and one box brought great relief. Whenever I do a hard day's work, especially washing, my back hurts me severely in my kidneys. I get so stiff and sore that it takes a lot of effort to get out of bed. I saw Doan's Kidney Pills so highly recommended that I thought I would give them a trial. After taking one box the trouble disappeared."

The above statement was given March 16, 1914, and on February 28, 1918, Mrs. Rose said: "I am glad to say my kidneys have given me no trouble since Doan's Kidney Pills cured me in 1914. I am glad to confirm the statement I gave at that time."

NEWS OF ATHENS
AND LIMESTONE COUNTY

J. H. Calvin, head of the wholesale grocery business of J. H. Calvin & Co., of Albany, completed the details of the purchase of the Athens branch of the Tennessee-Alabama Grocery company last Thursday and his firm took charge of the business last Saturday morning.

The election held Tuesday to determine whether the town of Athens should issue \$20,000 worth of city bonds for the purpose of adding a wing to the west side of the old Green school building purchased by the city last year for a public school, carried easily, the total vote being 192 for and 25 against bonds.

Good news to the people of this section who have been fighting for the completion of the road to Rogersville, and the adoption of the Muscle Shoals highway as a part of the Lee highway, is contained in a letter from State Highway Engineer Keller to Senator Rogers several days ago.

Young Wall was a visitor to Pulaski Tuesday.

Dick Harwood was down from Pulaski last week.

H. B. Malone was a visitor to Flora last week.

C. W. Tidwell was here from Pulaski Wednesday.

Mr. and Mrs. Edward P. Thomas have returned to their home in Chicago after a visit of some days to the latter's parents, Mr. and Mrs. E. F. Puryear.

Sam Bowen, John Robert Russell, Jesse Fulks, Winfrey Johnson and Clay Rawls spent two or three days of last week making a tour of Lauderdale, Lawrence and Maury counties. They report the road from Rogersville back to within three miles of Athens excellent.

Mrs. A. P. McClellan left Thursday for Montgomery, where she will be the guest of her son, Judge T. C. McClellan, and Mrs. McClellan for the remainder of the winter.

On Saturday afternoon the home of Mrs. W. P. Chandler was thrown open to the Snow Pryor Bible class with Mesdames M. M. Hoffman and Thos. Frost as hostesses. The guests were ushered into the dining room, where delicious refreshments were served by Mrs. Frost, assisted by Miss Lila Coleman in such a pleasing manner that each guest felt herself the favored one. Election of officers for 1922 was then in order, which resulted in the following: Mrs. Laura Chandler, president; Mrs. F. G. Hertzler, vice president; Mrs. W. F. Johnson, secretary, and Mrs. G. H. Wood, treasurer.

The play, "El Indiana," given by home talent at the college for the benefit of the public school, was a complete success. The characters were well selected and the acting was fine. The D. A. R. met in regular

L. J. Waldrop, of Lacon, is here on business today.

Howard Burleson, of Hartselle, secretary of the Morgan county farm bureau, is here today on business.

Joel W. Carter, of Nashville, is a visitor to the Twin Cities today.

Chestor T. Lee, of Hartselle, spent today in the city.

J. T. Ransom, of Somerville, was here today on business.

Rev. J. D. McClellan, of Hartselle, returning officer from that point, is in the city today.

Judge W. M. Culver, judge of the inferior court of Hartselle, is here today on business.

W. F. Boswell was in Nashville Friday on business.

D. B. Nelson will visit friends in Montgomery on Saturday.

Benjamin Bloodworth is ill at his home today.

W. R. Smith and Tom Pride leave today for Columbia, Tenn., to attend the funeral of Joe T. Neely.

The boys of the younger set will give a script dance Friday night. The place will be announced later.

Rev. H. L. Turner, of Sheffield, is attending the convention at the Westminister church here.

United States Marshal Henry A. Skeggs, of Birmingham, is the guest of his daughter, Mrs. Arthur Jones.

CHICAGOANS INTERESTED

IN VALLEY EXPOSITION

Those in charge of the Tennessee Valley Industrial Exposition to be held in the Twin Cities in February have received several letters from Chicago parties asking for further information relative thereto. They state that they have seen the articles appearing in the daily papers advertising the above fact and are interested along lines on which the exposition will be held.

The above statement was given March 16, 1914, and on February 28, 1918, Mrs. Rose said: "I am glad to say my kidneys have given me no trouble since Doan's Kidney Pills cured me in 1914. I am glad to confirm the statement I gave at that time."

60c at all dealers. Foster-Milburn

monthly meeting with Mrs. Harry Walker at 2:30 Tuesday afternoon. The study was a continuation of Alabama, and the program was a very interesting one.

Mrs. Will Pittman and her attractive daughter, Jane, of Huntsville, have been spending the week with her sister, Mrs. J. T. Tyler.

Dr. and Mrs. Walton Anderson are rejoicing over the arrival of their son, a baby.

Mr. and Mrs. William M. Voorhees left Sunday for Albany, where he has a splendid position with the Bailey Grocery company.

A long letter from J. Linley Soman, a former Athens boy, now a resident of Seattle, Wash., brings the information that the people of that section are having the most severe winter known to them in many years.

W. B. Anderson, one of the leading men of Shoaford, who has been ill several weeks with a dangerous carbuncle on his neck, was able to be in town Saturday.

Good news to the people of this section who have been fighting for the completion of the road to Rogersville, and the adoption of the Muscle Shoals highway as a part of the Lee highway, is contained in a letter from State Highway Engineer Keller to Senator

Highway Needs
Attention Now

That the Bee Line highway south from the Twin Cities is soon to get in bad condition unless some repair work is made on it at once, is very evident to those who have occasion to use this now splendid road.

"The past several days of wet weather has caused to be worn in its large holes that unless repaired at once will cause a great loss," a citizen declared today.

"Those who have the care of this road with the authority to act, will be doing a great service to give this matter their immediate attention. The old adage, 'a stitch in time saves nine,' was never more forcibly expressed or applied than to the above condition of this highway."

COUNTY OFFICES CROWDED
WITH TAX PAYERS

The two tax offices at the court house are besieged today by those who are anxious to pay and assess taxes before the limit expires.

There are, to date, something over three thousand polls paid in the county, and to day and tomorrow, the final days in which polls can be paid, promise that this number will be greatly swelled before the books close tomorrow, February 1st.

New Paper.
Hang the new wall paper with which you are going to patch the old in the sun for a while, and it will soon be faded to match.
